

3M Blue Economy Floor Pad

For daily cleaning, spray cleaning or light stripping operations

Technical data sheet

TD160. Date: November 2009
Supersedes: new issue Page 1 / 1

Description:

The 3M Blue Economy Floor Pad is a floor maintenance pad, made of synthetic fibres in an open textured non-woven construction. Cleaning particles are dispersed throughout and bonded with resin.

Each floor pad has a pre-cut centre hole.

Special Features:

- Medium aggressive pad removes marks and soil.
- Open web construction removes and traps soil from floors.
- Flexibility of the pad gives better conformability to the floor surface and makes it easier to wash after use

Where and When to Use:

RPM	150-400	400-1200
Strip	X	
Scrub	XX	
Spray / Daily	X	
Buff		

XX Designed for X suitable

The 3M Blue Economy Floor Pad is recommended for regular maintenance of unprotected floors under a scrubber dryer. It can also be used with a swing machine for scrubbing heavily soiled floors or for occasional spray cleaning of medium soiled floors. It is also

recommended for stripping soft floors such as Linoleum (Lino).

Directions for Use:

Regular cleaning under scrubber-dryer

1. Install a clean floor pad under the machine driving plate.
2. Scrub the desired area and vacuum with scrubber dryer.
3. Remove pad and wash after use.

Maintenance of pad:

1. Remove pad from machine after each use
2. Scrub both sides of pad with the centre hole or with a nylon brush under tap water or spray hose both sides or machine wash.
3. Hang up for drying. **Do not use pad when wet.**

Note: machine washed floor pads will shrink about 20 mm after first washing cycle. Recommended washing-machine temperature is 40°C (higher temperature will decrease the life of the pad).

Product Specifications:

The Blue Economy Floor Pad consists of polyester and nylon fibres, mineral particles and synthetic resin. They are not significantly affected by water, detergents and cleaners normally used in floor cleaning and maintenance.

Product Characteristics (typical values):

Colour: Blue
Marking: None
Thickness: 25.0mm (typical)
Centre hole: Pre-cut at 85 mm
Fibre type: Polyester and Nylon

Packaging and labelling:

Packaging material made of 100% recycled material. Product name and size indicated on each case.

Disposal Information:

Discard into appropriate container for incineration, if available.
Packaging material: recyclable

Origin:

Made in France, ISO 9002 certified plant.
