Flexible Air Sealing Tape FAST UC 8045

Product Data Sheet

Date: October 2016
Supersedes: NEW

Product Description

3M™ Flexible Air Sealing Tape Ultra-Conformable 8045 tape easily stretches to fit sills, curves and corners with a single piece without having to piece tape segments together. This avoids seams or joints.

Intended Use

- Sealing around openings and joints in building applications
- Sealing around window and door installations
- Sealing of feedthroughs for cables or wall penetrations

Note:
Applications not in regard to fire protection

Key Features

- Strong Tape that stretches and forms to difficult to flash areas (e.g. corners)
- Compatibility and primerless application with the most common building and construction substrates (PE, wood, OSB, concrete, etc.)
- Tight seal against weather intrusion
- Provides internal strength and durability
- Easy, fast and hassle-free installation
- 6 months UV radiation resistance

Important Notice

All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M’s control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user’s knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user’s method or application. All questions of liability relating to this product are governed by the terms of the sale subject, where applicable, to the prevailing law.

Values presented have been determined by standard test methods and are average values not to be used for specification purposes. Our recommendations on the use of our products are based on tests believed to be reliable but we would ask that you conduct your own tests to determine their suitability for your applications. This is because 3M cannot accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.
